Dirty and Dark – political donations from the fossil fuel industry

1 February 2023

1 February 2023

Ang Pamahalaan ng Australia ay patuloy na sumusuporta sa paggalugad at pagpapaunlad ng fossil fuel sa Australia, sa kabila ng 2021

modelling(<https://www.iea.org/reports/net-zero-by-2050>) ng International Energy

Agency (IEA), muling kinumpirma noong huling bahagi ng 2022(<https://www.theguardian.com/environment/2022/oct/27/>

[carbon-emissions-to-peak-in-2025-in-historic-turning-point-says-iea](#)), na yinds na maaaring magkaroon

walang mga bagong proyekto sa karbon, langis o gas kung ang mundo ay makakamit ang zero net emissions sa 2050 at limitahan ang pandaigdigang pag-init hanggang 1.5°C.

Anim na bagong proyekto sa pagmimina ng karbon(<https://epbcpublicportal.awe.gov.au/all-notices>) ang naaprubahan sa pagitan ng

paglabas ng ulat ng IEA at pagpapataksik sa dating Liberal-Pambansang pamahalaan, habang ang bago

Ang gobyerno ng paggawa ay nagbigay ng 10 bagong lisensya sa paggalugad ng langis at gas([https://](https://www.minister.industry.gov.au/ministers/king/media-releases/new-petroleum-acreage-provide-energy-security)

[www.minister.industry.gov.au/ministers/king/media-releases/new-petroleum-acreage-provide-energy-security](#)) simula noon. Mayroon

ding 118 na proyekto sa karbon, langis at gas(<https://www.industry.gov.au/publications/>

[resources-and-energy-major-projects-2022](#)) na kasalukuyang nasa pipeline ng pamumuhunan sa buong bansa ayon sa

ang Department of Industry, Science and Resources. Ang gobyerno ng Paggawa ay aktibong sumusuporta sa mga ito

mga pag-unlad kahit na ang sarili nitong Climate Change Bill(https://www.aph.gov.au/Parliamentary_Business/

[Ang Bills_Legislation/Bills_Search_Results/Result?bld=r6885](#)) ay naglalagay sa batas ng 43% na pagbawas sa Australia's

mga emisyon sa 2030.

Maahale ang mga partidong pampulitika ay patuloy na sumusuporta sa industriya ng fossil fuel sa pangani

sakuna pagbabago ng klima? Ang isang trawl ng pinakabagong data ng mga donasyong pampulitika, na inilabas noong Pebrero 1, ay nag-aalok
ilang mga pahiwatig.

Hefty donations from the fossil fuel industry

Noong FY2022 [1], ang mga kumpanya ng fossil fuel ay nag-donate ng \$2 milyon sa mga partidong ALP, Liberal at Pambansa.

Ngunit dahil sa reputasyon ng Australia para sa hindi sapat na pagsisiwalat sa pulitika at mga donasyong 'dark money',

na may 35% ng lahat ng kontribusyon(<https://www.theguardian.com/australia-news/2021/jan/31/australias-weak->

[donation-laws-allowed-1bn-in-dark-money-to-go-to-political-party-over-two-decades](https://www.theguardian.com/australia-news/2021/jan/31/australias-weak-donation-laws-allowed-1bn-in-dark-money-to-go-to-political-party-over-two-decades)) na nagmumula sa

hindi kilalang mga mapagkukunan, ang tunay na yigure ay maaaring mas mataas.

Nanguna sa pack na may \$188,000 halaga ng largesse ay Mineral Resources, na sinundan ng INPEX na may

\$157,300 at Santos na may \$153,660. Fossil fuel lobby group tulad ng Minerals Council of Australia at ang

Ang Australian Petroleum Production & Exploration Association (APPEA) ay nag-donate din ng halos kalahating milyon

dolyar, na may pinagsamang kabuuang \$441,482.

Kinokolekta ng Market Forces ang data na ito mula sa [Australian Electoral Commission\(https://](https://transparency.aec.gov.au/)

transparency.aec.gov.au/). Sa [ibaba](#) ay makikita mo ang buong listahan ng mga donor ng fossil fuel mula sa huling taon ng pananalapi

(tandaan: interactive ang talahanayan at naglalaman ng lahat ng donor ng fossil fuel mula FY2015 hanggang FY2022).

[1] Magtatapos sa Hunyo 30.

Dahil madalas na hindi sumasang-ayon ang mga halaga ng donasyon na ibinunyag ng donor at partido, ginagamit ng talahanayang ito ang alinmang halaga na mas malaki sa isang partikular na taon.

Top 10 donors to the major political parties, total over FY2015-22

Help Market Forces keep publishing research that holds the fossil fuel industry and its enablers to account. Please join us as a monthly donor today:

Join as a monthly donor(https://donate.marketforces.org.au/?internal_source=politicaldonations2023)

s%21&body=Hey, thought you might enjoy this! Check it out when you have a chance: <https://www.marketforces.org.au/politicaldonations2021/>)

Woodside continues to top the dirty donations league table

Sa panahon ng FY2015-22, tinalo ni Woodside ang kompetisyon sa mga tuntunin ng mga donasyon sa

malalaking partidong pampulitika na may kabuuang \$2 milyon – halos dalawang beses na mas malaki kaysa sa runner-up. Ibinigay

ang napakalaking plano ng pagpapalawak nito, hindi nakakagulat na ang kumpanya ay nagsisikap nang husto sa butter up ang mga pangunahing partido.

Kasalukuyang nagpapatuloy ang Woodside ng anim na bagong proyekto ng langis at gas sa Australia at sa ibang bansa, kabilang ang

Machine Translated by Google

malaki ang kontrol sa proyekto ng Scarborough gas(<https://www.marketforces.org.au/campaigns/companies/woodside-petroleum/>). Ang Scarborough ay sinusuportahan ng Federal Labor government(<https://www.abc.net.au/news/2022-06-09/woodside-scarborough-project-scientist-warning-climate-targets/101136904>) sa kabila ng mga plano nito (na nasa batas na ngayon) na bawasan ang mga emisyon ng Australia ng 43% ng 2030.

Santos increases its donations ahead of controversial Narrabri Gas Project approvals

Nasa pangalawang puwesto si Santos para sa mga donasyong pampulitika nito sa nakalipas na walong taon at hindi kukulangin kontrobersyal. Pag-unlad ng labis na polusyon ni Santos (<https://ieefa.org/articles/ieefa-update-santos-wont-solve-problem-barossa-Ing-carbon-capture-and-storage>) Barossa project sa Northern Territory ay itinigil mula noong Agosto 2022, kung saan ang Federal Court ng Australia ay hindi nagkunsulta sa kumpanya sapat na may mga Tradisyunal na May-ari ng Tiwi Islands. Samantala, patuloy na hinahabol ni Santos ang marami pang iba mga bagong proyekto ng langis at gas na hindi tugma sa mga layunin sa domestic at pandaigdigang klima. Ang kumpanya nakatuon na bumuo ng bagong oil yield (Pikka, sa Alaska) noong Agosto 2022(<https://www.santos.com/news/santos-announces-pikka-yield/>), at kasalukuyang nagsusumikap sa pagpapalawak(<https://www.upstreamonline.com/yield-development/double-whammy-facing-dorado-partners-santos-and-carnarvon/2-1-1339878>) ang sukat ng mga plano nito para sa isa pang bagong lupain (Dorado, sa Kanlurang Australia).

Why is donations disclosure such a mess?

Sa kasamaang palad, ang isang sintomas ng sistema ng pagpopondo sa pulitika na hindi maayos na kinokontrol ay ang napakalaki mga pagkakaiba sa pagitan ng ibinubunyag ng mga pangunahing partidong pampulitika, at kung magkano ang mga kumpanya ng fossil fuel i-claim na may regalo.

Halimbawa, noong FY2022 oil at gas major Chevron ay nagsiwalat ng \$45,470 sa mga donasyon sa ALP, habang ang Ang ALP ay nagpahayag lamang ng \$11,200 na mga donasyon mula sa Chevron. Sa lahat ng donasyon ng kumpanya ng fossil fuel sa tatlong malalaking partido, nagresulta ito sa isang pagkakaiba ng **\$1 million**.

Para sa kadalian ng interpretasyon, ginagamit ng aming mga hula ang mas malaki sa mga halagang isiniwalat (gamit ang halimbawa sa itaas, ituturing na ang Chevron ay nagbigay ng \$45,470 sa ALP noong FY2022).

Ang mga pagkakaibang ito ay dulo lamang ng malaking bato ng yelo. Ang mga batas sa pagsisiwalat sa pulitika ng Australia ay hindi kapani-paniwalang maluwa, hanggang sa naging paksa sila ng isang nakapipinsalang ulat ng Grattan Institute(<https://grattan.edu.au/ulat/sino-sa-kuwarto/>) at susuriin sa Senate Inquiry sa 2022 Federal

Halalan(https://www.aph.gov.au/Parliamentary_Business/Committees/Joint/Electoral_Matters/2022federalelection/Terms_of_Reference). Ang Sentro para sa Pampublikong Integridad mga pagtatantya(https://publicintegrity.org.au/research_papers/submission-to-the-inquiry-into-the-2022-federal-election/) na higit sa \$68 milyon sa mga donasyon ay 'di maipaliwanag na pinagmulan' noong 2020-21,

kumakatawan sa 38.6% ng kita ng mga partidong pampulitika. Ang mga kahihinatnan ng ating kalunos-lunos na batas ay marami:

- Delayed reporting: learning about donations up to 18 months after they’re made
- Party and donor returns not reconciling

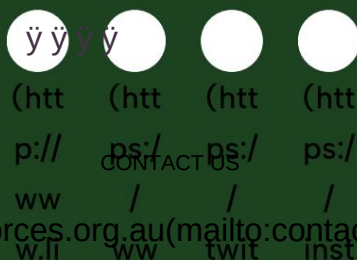

- Lack of standardisation of donor names
- Donations hidden in associated entities
- Donors can 'split' donations into small amounts that parties don't have to disclose
